500mg Film-coated tablets Paracetamol

Please read right through this leaflet before you start using this medicine. This medicine is available without prescription, but you still need to use Hedex tablets carefully to get the best results from them.

- Keep this leaflet, you may need to read it again.
- If you have any further questions, ask your pharmacist.

In this leaflet:

- What Hedex tablets are and what they are used for
- Check before you take Hedex tablets
- How to take Hedex tablets
- Possible side effects
- How to store and dispose of Hedex tablets
- Further information

1. What Hedex tablets are and what they are used for

Hedex tablets are used for relief of headaches, including migraine and tension headaches, toothache, backache, rheumatic and muscle pains, neuralgia and period pain. It also relieves sore throat and the feverishness, aches and pains of colds and flu. The active ingredient is paracetamol which is a painkiller and also reduces your temperature when you have a fever.

2. Check before you take Hedex tablets

X Do not take Hedex tablets:

- if you have ever had an allergic reaction to paracetamol or to any of the other ingredients (listed in Section 6).

LEADING EDGE

NOT SUITABLE FOR CHILDREN UNDER 6 YEARS.

!

- Do not take for more than three days without consulting your doctor.
- Do not take more than the recommended dose.
- This product should be used only when clearly necessary.
- If symptoms persist consult your doctor.
- Prolonged use except under medical supervision may be harmful.

If you take too many tablets

Immediate medical advice should be sought in the event of an overdose, even if you feel well, because of the risk of delayed, serious liver damage.

If your symptoms continue or your headache becomes persistent, see your doctor.

4. Possible side effects

Like all medicines Hedex tablets can have side effects, but not everybody gets them:

Stop taking this medicine and tell your doctor immediately if:

- you experience allergic reactions such as skin rash or itching, sometimes with breathing problems or swelling of the lips, tongue, throat or face.
- you experience a severe skin rash or peeling of the skin which may be accompanied by mouth ulcers.
- you may have previously experienced breathing problems with aspirin or non-steroidal anti-inflammatories, and experience a similar reaction to this product.
- you experience unexplained bruising or bleeding.

These reactions are rare.

If you do get any side effects, even those not mentioned in this leaflet, tell your doctor or pharmacist.

5. How to store and dispose of Hedex tablets

Keep out of the reach and sight of children. This medicinal product does not require any special storage conditions. Do not use this medicine after the expiry date (EXP) shown on the outer carton and blisters. The expiry date refers to the last day of that month. Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.

6. Further information

Active ingredient Each tablet contains Paracetamol 500mg.

Other ingredients Maize starch, potassium sorbate, talc, stearic acid, povidone, pre-gelatinised starch, hypromellose and triacetin. The printing ink contains shellac, brilliant blue (E133), sodium lactate and silicone antifoam emulsion.
